Office Action Summary	Application No. 10/591,313	Applicant(s) SHORT ET AL.	
	Examiner Robert D. Harlan	Art Unit 1796	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

2. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

3. Claims 1-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Obie et al., WO 01/35719 (hereinafter "Obie") in view of Payne, Organic Coating Technology, vol. 1, page 240

Art Unit: 1796

(hereinafter "Payne"). Obie teaches a wood stain formulation comprising carboxy methyl cellulose butyrate acetate in water and an organic solvent, butyl benzyl phthalate, surfactants, acrylates and pigments and extenders such as titanium dioxide and calcium carbonate are explicitly disclosed as additives to the formulation. See Obie, page 13, line 19, page 14, lines 1-13, page 9, lines 6-29. Obie further teaches adding silica to the composition. See Obie, page 13, line 5. Obie fails to teach an alkaline earth metal salt of an aliphatic fatty acid. Payne teach in analogous art metallic soaps as flatting agents. In recently decided KSR Int'l Co. v. Teleflex, Inc., the Supreme Court unanimously stated "the combination of familiar elements according to known methods is likely to be obvious when it does no more than yield predictable result." In view of Payne, one having an ordinary skill in the art would be motivated to modify Obie by using a metallic soaps as flatting agents because both references are directed at coating composition with a flatting agent.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert D. Harlan whose telephone number is (571) 272-1102. The examiner can normally be reached on Mon-Thu, 10 AM - 8 PM.

5. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David W. Wu can be reached on (571) 273-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

6. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
